# Or carbon monoxide poisoning?

## Carbon monoxide is a poisonous gas. Don't mistake the symptoms for a hangover.

Gas appliances that are badly fitted or poorly serviced can put you at risk from carbon monoxide poisoning, gas leaks, fires and explosions. Gas safety may not be your top priority but knowing your rights when you rent could save your life.

By law your landlord must keep all gas appliances supplied for you to use in good condition. They must arrange for a Gas Safe registered engineer to carry out a gas safety check on them every 12 months and provide you with a copy of the landlord's gas safety record.

### ALWAYS:

- Ask for a copy of the landlord's current gas safety record before you move in.
- Cooperate with your landlord and let a registered engineer in when a gas safety check or servicing has to be done.
- Check the ID card of any gas engineer that comes to do work in your home.

### Remember to check both sides of the ID card for:

- the licence number
- the start and expiry date
- the security hologram
- the work the engineer is qualified to do
- up-to-date qualifications

### GasSafeRegister.co.uk/students

Gas Safe Register is the official list of gas engineers who are qualified to work safely and legally on gas appliances. It has replaced CORGI registration. Only a Gas Safe registered engineer should fit, fix or service gas appliances.

If you think a gas appliance is faulty, turn it off and let your landlord know immediately. In an emergency call the gas emergency helpline on 0800 111 999. If you feel unwell, seek medical help right away.

	Domestic	Gas	LPG	Non-Domestic	Gas	LPG
Pipework	31/03/15	31/03/15				
Cooker	31/03/15	31/03/15				
Fire	31/03/15	31/03/15				
Water Heater	31/03/15	31/03/15				
Gas Boiler	31/03/15	31/03/15				
Comb Analysis	31/03/15	31/03/15				

The cardholder is deemed competent only in the categories of work identified by a date. Licence No. 3456789

Gas engineers must be Gas Safe registered in the United Kingdom, Isle of Man and Guernsey.
